# ITA - ITALIAN TRADE AGENCY

## Italian Trade Agency Trade Promotion Section of the Italian Embassy

ITA - Italian Trade Agency is the Governmental agency that supports the business development of our companies abroad and promotes the attraction of foreign investment in Italy, through "Invest in Italy", a project operated with Invitalia. With a motivated and modern organization and a global network of 87 offices in 74 countries, ITA provides information, assistance, consulting, promotion and training to Italian small and medium-sized businesses in the industrial, consumer goods and services sectors.

Using the most modern multi-channel promotion and communication tools, it acts to assert the excellence of Made in Italy in the world. Every year, ITA worldwide offices carry out hundreds of promotional projects and provide personalized services and assistance to thousands of Italian companies. The Italian Trade Agency also assists and supports foreign companies that want to establish or expand business and trade relations with Italian companies or to invest in Italy. The Italian Trade Agency collaborates with Italian Regions, Chambers of Commerce, Industry and Trade Associations and other public and private organizations.

## UNACEA

Unacea - Italian construction equipment association, founded in 2010, counts more than 85 member companies and a rate of representativeness in terms of turnover of 80%, both in producing and importing of all types of equipment: earthmoving, road, concrete, drilling, attachments, and tower cranes.

The industry has a manufacturing turnover of 2.5 billion euros and an employment volume of 36 thousand workers, including related activities. Unacea represents the Italian industry in Cece - the Committee for European construction equipment, based in Brussels.

Unacea represents the interests of the industry before the Italian Ministries, Authorities and public bodies that deal with construction equipment and promotes the internationalization of Italian companies organizing national pavilions.

## UCOMESA

UCoMESA - Italian Association of Construction Equipment Manufacturers created in 1951 within ANIMA (Federation of Italian Mechanical and Engineering industries associations). Ucomesa gathers the most qualified major Italian manufacturers of construction equipment and machinery. Ucomesa is particularly focused on matters related to export and carries on either directly or in co-operation with ITA/ICE Agency promotional activity which includes participation in several trade fairs both in Italy and abroad.

MINERARIE ED AFFINI

## AISEM

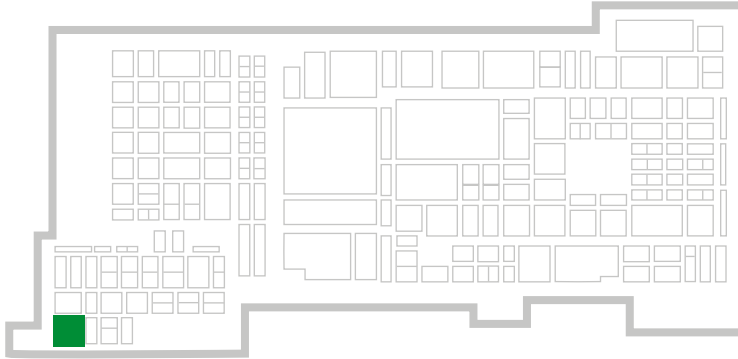

AISEM (Italian Association of Lifting, Elevating and Handling Systems) was formed in 1992 from the merger of two entrepreneurial unions that had already been federated to ANIMA for more than forty years. The association brings together the best national entrepreneurs for the construction and distribution of material handling and lifting equipment, representing about 75% of the entire national production, of which about 40% is destined for export.

## ANIMA

ANIMA Confindustria Meccanica varia, founded on 14 February 1914, is the Confindustria system's industrial organization that represents companies operating in the mechanical engineering sector. The Federation is made up of 30 associations and product groups, and has over 1,000 member companies, more than 220.000 employees, representing 58.3% of the Italian total export sales for construction equipment, machines and other building products.

### Company profile:

Cangeo is a new product line created by Giorgio Cangini, dedicated to premium equipment for earthmoving operations.

It stems from extensive experience in the earthmoving sector and from the ambition to deliver innovative equipment capable of raising the standards of efficiency and reliability on the job site.

Advanced engineering, reliability, and power come together in a range designed for superior performance: front-mounted mulcher heads, compactor plates, hydraulic pile drivers, and stump grinders for excavators and front machines.

Cangeo brings Italian quality and innovation to markets worldwide, offering professional solutions for high-level construction sites.

**Contact:**

Lisa Montanari

✉ lm@dml.srl

**Company profile:**

DLM has specialized in the production of protection systems for over 50 years. The company is committed to ensure a total ecological transition of its products and production processes by 2025. DLM's staff is the beating heart of this amazing ecological transition, which turns into actions on both professional and personal level. Our ecological transition is a concrete commitment to our families, our children and future generations, in order to reduce the environmental impact of our products and processes, which lies on the reliable DLM GREEN DEAL. From 2019 onwards, DLM has made investments to replace 65% of its production plants by installing the latest equipment, thus generating a 30% reduction in energy consumption. In 2021, we activated our photovoltaic system which covers, thanks to solar energy, 35% of our electricity needs. The training, the awareness and the involvement of our entire STAFF have been key success factors for a conscious use of equipment and raw materials. Our GREEN LINE made from second-

life plastics is the result of our commitment to the environment. Our ECO products are PSV (Plastic Second Life) certified and meet the requirements of ISO 14021. Thanks to the ECO line we will avoid to release approximately 800,000 kg of CO2eq/year. All ECO articles will be recyclable again for circular economy. Every day, DLM is committed to developing ideas and solutions for economic, social and environmental sustainability, accepting challenges of continuous improvement.
