ITA - ITALIAN TRADE AGENCY

Italian Trade Agency Trade Promotion Section of the Italian Embassy

ITA - Italian Trade Agency is the Governmental agency that supports the business development of our companies abroad and promotes the attraction of foreign investment in Italy, through "Invest in Italy", a project operated with Invitalia. With a motivated and modern organization and a global network of 87 offices in 74 countries, ITA provides information, assistance, consulting, promotion and training to Italian small and medium-sized businesses in the industrial, consumer goods and services sectors.

Using the most modern multi-channel promotion and communication tools, it acts to assert the excellence of Made in Italy in the world. Every year, ITA worldwide offices carry out hundreds of promotional projects and provide personalized services and assistance to thousands of Italian companies. The Italian Trade Agency also assists and supports foreign companies that want to establish or expand business and trade relations with Italian companies or to invest in Italy. The Italian Trade Agency collaborates with Italian Regions, Chambers of Commerce, Industry and Trade Associations and other public and private organizations.

AIR TECH ITALY

Italian Airport Industry Association

Air Tech Italy (ATI) is the leading Trade Association representing Italian companies specialized in supplying products, technologies and services for airports, civil aviation authorities and air navigation service providers.

The organization is the first point of contact for international clients looking for top-quality Italian companies. The main goal of the Association is to support airport operators, civil aviation organizations and air traffic service providers with the right solutions “Made in Italy” to cover their aviation needs.

The organization was founded in July 2020 under the institutional patronage of ENAC (Italian Civil Aviation Authority) to bring together leading Italian suppliers of solutions for the aviation industry in one strong organization.

Internationalization, Digitalization, Innovation and Sustainability are the main drivers of ATI members.

ATI supports its Members in networking and establishing collaborative relationships, providing them with practical assistance for business intelligence, business meetings, participation in business missions and international trade fairs.

Italian Airport Industry Association

OICE

**Association of Italian Engineering,
Architectural and Technical-Economic Consulting
Organizations**

OICE is the employers' Association, belonging to Confindustria (the Confederation of Italian Industry), which represents Italian engineering, architectural and technical economic consulting organizations. Founded in 1965 OICE unites 450 Italian engineering and architecture companies, big companies and most of the best qualified small and medium firms in the sector. OICE operates in 4 major areas: representing and safeguarding category interests, promoting the culture of organized engineering, providing services for members and promoting internationalization of Italian Engineering.

OICE is member of FIDIC - International Federation of Consulting Engineers and EFCA - European Federation of Engineering Consultancy Associations. OICE participates to the international activities and Italian Institutional missions, promotes special partnerships with the engineering Associations, sustains the participation of the Italian Consulting companies to the tenders organized by the International Financial Institutions (WB, EBRD, AfDB, ADB, IDB etc...).

Areas of specialization are urban and territorial planning, architecture, civil engineering, transports, environmental engineering, energy, agriculture and rural development.
